

Bronze Topics

Grades	4-5
Course	Foundation* or Higher
Duration	TEN Weeks
Videos	50

Maths Memory 'Bronze' is designed for the :

Foundation tier student who wants to attempt the most challenging questions in their paper. These topics are **grades 4 and 5 only**.

OR

Higher tier student who want to consolidate the fundamental material covered in their paper. These topics are **grades 4 and 5 only**.

Bronze Revision

A. Revision Planner (Week 1 - Week 10)

Topics are scheduled on specific dates within a **TEN week revision period**, so students can effectively plan their revision period. Start dates depend on course.

Subscribe to your course to download a **FULL** Revision planner.

B. Revision Videos (Includes ALL printable topic questions)

50 revision videos are designed to cover THREE 'Stages of Learning' from **grades 4 and 5 topics**.

'Back to Basics' (Reviewing basic principles)

'Core' (Exam style questions)

'Let's Do it!' (Practice questions yourself)

Each stage has a purpose to provide structure and more depth to the revised topic.

C. Revision Cards

Designed to prioritise " Topic Content" into these categories.

'Key Methodologies'

'Key Exam questions'

All Revision cards shown act as a template to give structure and guidance to the student. They do not have to be followed rigidly at all, as the student must create a structure that is best for them. We recommend the student use their own A5/A6 cards, as revision cards won't be provided.

Silver Topics
Grades 6 - 7

Gold Topics
Grades 8 - 9
